

The Reliable Name in Compact Storage

Mizer Mobile Systems: Retail Shoe Store

The Challenge

A shoe outlet needed more space for their inventory- but could not sacrifice an already limited retail floor. It was important to preserve the attractiveness of the store, and maximize product display. These criteria posed serious challenges to the small space- failing any one of these priorities would potentially damage sales and the business.

The Solution

A Mizer Manual mobile storage system was provided to maximize storage while keeping the retail floor space intact. This completely resolved the inventory problem, and ensured that staff access would not be hindered. The end panels were fitted with clean looking slat walls which displayed a range of products, maximizing exposure to customers. The look of the store was preserved, storage was maximized, and display space was enhanced.
